SAVAGELY PORTUGUESE

Bottle / 175 ml

LOUREIRO, ROYAL PALMEIRA — 60 / 12

This wine is produced from one grape, Loureiro, which is a type of grape only found in the region of Vinhos Verdes, in the north part of Portugal.

This white grape is known for being floral, very mineral and with a very well balanced acidity!

TOURIGA NACIONAL, DOM BELLA — 75 / 14

This wine is produced based on one Portuguese native grape, Touriga Nacional.

This grape is known for having red fruit aromas, being very mineral and balanced acidity! The freshness of this wine is really amazing given the fact that it is a red wine. The Quinta de Bella estate is located on the top of a mountain (altitude), that factor combined with the soil gives this wine great elegance.

Bottle / 125 ml

COLINAS BRUT NATURE — 65 / 11

This sparkling wine is produced using a single grape variety, Chardonnay, applying the same method that is used by Champagne producers in France. Elements of limestone are reflected in the wine creating a unique freshness based on sea salt! The nose is vibrant, joyous and fresh. Delicate, open, with hints of citrus and white flowers. It is a harmonious wine that never tires the palate. Certainly, a wine to be consumed at any time of the day or night

CHAMPAGNE
