

A professional video camera on a tripod is the central focus in the foreground. The camera is a Canon Digisuper 95, with 'TRANSITION' branding visible on the top and side. It is mounted on a black tripod. The background is a dark venue, likely a concert hall or event space, filled with vibrant purple and blue laser lights that create a complex web of lines across the ceiling. Several spotlights are directed towards the floor, illuminating a crowd of people in the distance. The overall atmosphere is high-tech and dynamic.

STANDARD PRODUCTION SPECIFICATION

Although a blank canvas space, offering extraordinary flexibility, Battersea Evolution is a venue which provides an unrivalled level of high spec production kit as standard, in partnership with our technical partner Hawthorn.

HAWTHORN

The following technical specification is included in your venue hire fee.

- External LED lighting to the front of the building, truss arches and the 'grassy knoll'
- Architectural LED lighting to the atrium roof space
- LED colour wash to the atrium and mezzanine areas
- Colour changeable LED starcloth roof
- LED room wash throughout the main event space
- Distributed audio system for background music, announcements and reinforcement of a larger 'event' system
- Drape dividing the mezzanine and main event space
- Black drape walls to main space

The following standard technical items are available in the venue for all events at additional cost.

- 10 x Alpha Spot 575 moving lights on mezzanine
- Pinpoint lighting to tables
- Access to comprehensive ArtNet installation throughout the venue
- Lighting socapex and power feeds – both dimmed and 'hot' power
- Drape divide between bar and dining space
- Electrical supplies throughout the venue
